## InfoTelesys UnixiT IT Set V21 The Worlds Most Advanced Tablet Computer

Nothing comes close to the advanced features of the InfoTelesys UnixiT™ iT Set V21. Setting a new standard, InfoTelesys offers users a platform that is galaxies ahead of Samsung & eats Apple to the Core. You not only have the convenience of the worlds top tablet computer, you have the features of an advanced workstation.

**InfoTelesys' UnixiT iT Set sets the Open Systems standard, This is iT™**

The dual Android & UnixiT™ Operating Systems bring around half a million Android tablet applications in addition to some of the worlds most advanced heavy duty Unix Applications such as OpenOffice, without you having to spending a cent more. Desktop computers can't offer the same full-feature functionality!

The 1.6GHz dual-core 3066 Rockchip Central Processing Unit (CPU) & quad-core GPU (Graphics Processing Unit) in your iT Set V21 offers some of the most powerful processing power available in a tablet form.

The iT Set V21's 6,600 mAh battery is nearly twice the capacity found on competing tablets. With the 32GB SD expansion slot, your memory is not limited, simply pop in another SD chip to capture more video or data. Alternatively connect a USB memory stick or attached a huge terabyte disk drive.

Add a keyboard & mouse; Connect a 1920x1080p High-Definition TV or projector to the integrated on-board HDMI port, to project your best image.

You are not locked into wireless providers Samsung & Apple cut deals with; make your own choice, get the best deal on low-cost supported 3G or 4G USB modems.

iT's really not an apples to apples comparison between the InfoTelesys UnixiT iT Set V21 & other tablets, the iT Set's got iT all & way more. Unlike the competition, iT comes fully loaded & iT's a breeze to expand & integrate. Simply plug it into your PC to transfer files. No need to purchase expensive clumsy adapters or get stung with expansion options, while the software available on your iT Set, is vastly more advanced & mostly free: Advanced Office Automation; Translators; Piano's; Drum kits; Education; Books; Software Development; CAD; Games; Spread Sheets, etc.. Rarely do iT Set users need more software than what is freely available.

Deliver real results with powerful performance, turn your iT Set into a power-house high-end multimedia workstation to put your best image forward & make iT happen!

With InfoTelesys' UnixiT iT Set you are not limited, there is no compromise, iT's all here, all inclusive. With InfoTelesys you've got iT all. Enjoy this exciting new high-performance ride. With InfoTelesys, the sky is not the limit™.

**InfoTelesys, the Intelligent decision™**
