The iT Set V24's large 10.1" 16:9 ratio 10 point active capacitance touch screen turns this iT Set into a perfect size High Definition Media system at a very reasonable price.

The 1.2GHz VIA8850 Central Processing Unit integrated with an advanced Graphics Processing Unit, delivers crystal-clear High-Definition 1080p video. Connect your iT Set V24 to a large HDMI TV or projector and outdo the wealthiest connoisseur's expensive multimedia theater.

The iT Set V24 is no light-weight when it comes to performance & features. With the keyboard case, or a regular USB keyboard and mouse you turn your iT Set V24 into a notebook computer. With 8GB on-board as standard, you can cost-effectively and easily add an additional 32GB micro SD memory card, or connect USB flash drives or a large hard disk and USB hub. Add low-cost supported USB modems if you want 3G, however that's no match for the integrated 150 mega bits per second WiFi.

Driving new heights in price/performance, the iT Set V24 offers you the whole apple in an industry leading fully integrated system. iT's really not an apples to apples comparison between the InfoTelesys iT Set V24 and the iPad; the iT Set's got iT all. As with all the InfoTelesys iT Set Family, the iT Set V24's is fully loaded, iT's all here, all inclusive, no need for clumsy expensive adapters. With InfoTelesys you've got iT all at about the cost of what you pay for the adapters to get other systems up to speck. Get iT, and be the envy of the office or school.

Your iT Set projects your best image at the highest quality and resolution, delivering real results with powerful performance. Enjoy this exciting ultra-high-definition ride with InfoTelesys without emptying your bank account.
